

How can this be happening in my country? What about equal time? What about fairness? Is it truly just those who have money who have a voice in our country? Is this what our children have fought and died for for over 200 years.

In many ways, it's you who are the keepers and protectors of free speech and fairness in whose voices are heard in the public debate. Please do allow this insult to what this country is all about to take place. Please.

Sincerely,

Andrea Louise Smidt
